Applicant: Heinrich et al. Examiner: P. Nguyen
Serial No.: 09/329,557 Group Art Unit: 2671
Filed: 6/10/99 Docket: 18195.25
Title: System for Reducing Aliasing on a Display Device

PETITION TO REVIVE UNDER 37 CFR § 1.137(a)

Box DAC
Office of Petitions
Assistant Commissioner for Patents
Washington, D.C. 20231

RECEIVED
MAR 19 2003
OFFICE OF PETITIONS

The above identified application became abandoned for failure to timely pay the issue fee, which is due on January 23, 2003. The abandonment date of this application is January 24, 2003.

Applicant hereby petitions for revival of this application and this petition is supported by:

1. A petition fee to revive an unavoidably abandoned patent application \$110.00;
2. The issue fee payment of \$1280.00 is enclosed herewith;
3. No terminal disclaimer is required because the application was filed in 1999; and
4. A statement of unavoidable abandonment:

The entire delay in paying the issue fee by the due date of January 23, 2003, was unavoidable because the Examiner failed to acknowledge two timely submitted IDS' and the Patent Office failed to respond to the Status Inquiry that was submitted on December 13, 2002 and a copy of which is attached hereto.

Applicant made the inquiry because the Examiner failed to acknowledge with the Notice of Allowance two IDS' submitted timely on 10/20/1999 and 2/11/2000. The copies of the IDS' originally submitted with postcards file-stamped by the Patent Office were included in the

inquiry. Because the IDS' were timely filed, they must be considered by the Examiner prior to the issuance of the patent.

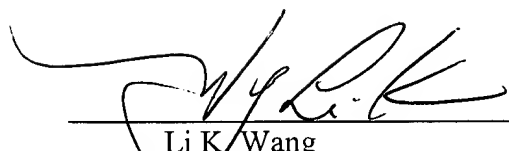

Without the initial form or acknowledgment of the Patent Office that the IDS' were considered, Applicant would be issued a patent with a latent ambiguity that jeopardizes the validity of the patent. In view of the Patent Offices non-communication regarding the IDS' status, Applicant was faced with two choices: Petition to withdraw the application under 37 CFR §1.313 or have the application go abandoned until the IDS issue can be resolved. Through no fault of Applicant, Applicant had to choose between refusing an allowed patent or having a patent with problematic validity issues. Applicant should not be penalized for the administrative errors in the application that it did not cause.

Enclosed is a copy of the Status Inquiry originally submitted as well as copies of the IDS' submitted on 10/20/99 and 2/11/00, respectively with the postcards file-stamped by the Patent Office. Enclosed, also, is a copy of the Issue Fee Transmittal.

In summary, Applicant cannot have the patent issued with an ambiguous prosecution history. Applicant timely filed the IDS' and diligently inquired the status of the missing IDS'. The Patent Office's failure to timely respond to Applicant's Status Inquiry, forced Applicant to delay payment of the issue fee. Therefore, the delay in issue fee payment became unavoidable.

Respectfully submitted,
Heinrich et al.

ing date of a national application" under 37 C.F.R. 1.97(b) has two possible meanings. Where it is a direct one, the United States Patent & Trademark Office, the filing is defined as 37 C.F.R. 1.97(b)(1). On the other hand, an international application that enters the national stage occurs when the applicant has filed the documents and fees required by 35 U.S.C. § 371(c) within the periods set forth in § 1.494 or § 1.495. 35 U.S.C. § 371(c) requires the filing of the following: (1) the national fee; (2) a copy of the international application, unless already sent by the International Bureau, and an English translation if filed in another language; (3) amendments under PCT Article 19, with a translation into English if made in another language; (4) an oath or declaration; and (5) a translation into English of any annexes to the international preliminary examination report, if such annexes were made in another language. 37 C.F.R. 1.97(b)(2).

IDENTIFICATION OF TIME OF FILING THE ACCOMPANYING INFORMATION DISCLOSURE STATEMENT

The information disclosure statement submitted herewith is being filed within three months of the filing date of the application or date of entry into the national stage of an international application or before the mailing date of a first Office action on the merits, whichever event occurs last. 37 C.F.R. 1.97(b).

NOTE: "No certification or fee is due when the filing is made within the above time period. It is advisable to ensure that no Office action has been mailed if the disclosure statement is delayed until after three months from filing."

NOTE: "An information disclosure statement will be considered to have been filed on the day it was received in the Office, or on an earlier date of a mailing if accompanied by a properly executed certificate of mailing under 37 C.F.R. 1.8, or Express Mail certificate under 37 C.F.R. 1.10. An Office action is mailed on the date indicated in the Office action." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

NOTE: "The term 'national application' includes continuing applications (continuations, divisions, continuations-in-part) so three-months will be measured from the actual filing date of an application as opposed [sic] to the effective date of a continuing application." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

NOTE: "An action on the merits means an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merits would, for example, contain a rejection or indication of allowability of a claim or claims rather than just a restriction requirements (37 C.F.R. 1.142) or just a requirement for additional fees to have a claim considered (37 C.F.R. 1.16(d)). Thus, if an application was filed on Jan. 1 and the first Office action on the merits was not mailed until six months later on July 1, the examiner would be required to consider any proper information disclosure statement filed prior to July 1." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

WARNING: "A petition for suspension of action to allow applicant time to submit an information disclosure statement will be denied as failing to present good and sufficient reasons, since 37 C.F.R. 1.97 provides adequate recourse for the timely submission of prior art for consideration by the examiner." Notice of July 6, 1992 (1141 O.G. 63).

(Transmittal of Information Disclosure Statement Within Three Months of Filing or Before Mailing of First Office Action [6-3]—page 1 of 2)

the filing is a direct one to the United States Patent & Trademark Office, the filing is made in 37 C.F.R. 1.53(b) as "the date on which (1) a specification containing a description pursuant to § 1.101 and at least one claim pursuant to § 1.102, and (2) any drawing required by § 1.81(a), are filed in the Patent and Trademark Office in the name of the actual inventor or inventors as required by § 1.41." 37 C.F.R. 1.97(b)(1). On the other hand, an international application that enters the national stage occurs when the applicant has filed the documents and fees required by 35 U.S.C. § 371(c) within the periods set forth in § 1.494 or § 1.495. 35 U.S.C. § 371(c) requires the filing of the following: (1) the national fee; (2) a copy of the international application, unless already sent by the International Bureau, and an English translation if filed in another language; (3) amendments under PCT Article 19, with a translation into English if made in another language; (4) an oath or declaration; and (5) a translation into English of any annexes to the international preliminary examination report, if such annexes were made in another language. 37 C.F.R. 1.97(b)(2).

IDENTIFICATION OF TIME OF FILING THE ACCOMPANYING INFORMATION DISCLOSURE STATEMENT

The information disclosure statement submitted herewith is being filed within three months of the filing date of the application or date of entry into the national stage of an international application or before the mailing date of a first Office action on the merits, whichever event occurs last. 37 C.F.R. 1.97(b).

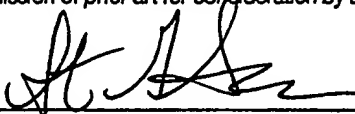

NOTE: "No certification or fee is due when the filing is made within the above time period. It is advisable to ensure that no Office action has been mailed if the disclosure statement is delayed until after three months from filing."

NOTE: "An information disclosure statement will be considered to have been filed on the day it was received in the Office, or on an earlier date of a mailing if accompanied by a properly executed certificate of mailing under 37 C.F.R. 1.8, or Express Mail certificate under 37 C.F.R. 1.10. An Office action is mailed on the date indicated in the Office action." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

NOTE: "The term 'national application' includes continuing applications (continuations, divisions, continuations-in-part) so three-months will be measured from the actual filing date of an application as opposed [sic] to the effective date of a continuing application." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

NOTE: "An action on the merits means an action which treats the patentability of the claims in an application, as opposed to only formal or procedural requirements. An action on the merits would, for example, contain a rejection or indication of allowability of a claim or claims rather than just a restriction requirements (37 C.F.R. 1.142) or just a requirement for additional fees to have a claim considered (37 C.F.R. 1.16(d)). Thus, if an application was filed on Jan. 1 and the first Office action on the merits was not mailed until six months later on July 1, the examiner would be required to consider any proper information disclosure statement filed prior to July 1." Notice of April 20, 1992 (1138 O.G. 37-41, 39).

WARNING: "A petition for suspension of action to allow applicant time to submit an information disclosure statement will be denied as failing to present good and sufficient reasons, since 37 C.F.R. 1.97 provides adequate recourse for the timely submission of prior art for consideration by the examiner." Notice of July 6, 1992 (1141 O.G. 63).
